Github: github.com/sinewyk
Twitter: twitter.com/sinewyk
Personal: sinewyk.com

I'm a software developer/engineer. I love it.

I also like teaching/mentoring, did quite a lot of it in previous jobs, so I would like to try it full time in the future.

Skills

Spoken languages: French (native), English (excellent)
GNU/Linux, Windows, OS X, bash, docker
Versioning: Git, SVN
SQL: PostgreSQL, Mysql | noSQL: Mongo

Javascript (Typescript, Nodejs), PHP, HTML, CSS (less, sass)
Learning Rust ❤️
Libraries: React, Redux, Ramda, Jest ...
Tools: Webpack, Prettier ...

Experiences

Fullstack Web Developer, *Ma Salle de Sport*, Paris

Jun 2020

NodeJS   MySQL   Javascript   React

MySQL major migration, utf8_mb4 handling

Mar 2020

Nodejs job server, automatic deployment for aws

3 weeks after I started, all gyms (which were our clients) closed due to Covid-19 😅

Fullstack Web Developer, *La Ruche qui dit Oui!*, Paris

PHP   Symfony 2   Doctrine   PostgreSQL   Javascript   React   Redux

Achievements and responsabilities:

Sep 2019

I wrote an ETL process by hand in PHP for v2 => v3 MySQL to PostgreSQL migration ... it "only" had 1 bug, I fixed it later.

Core duties: dependencies management, tooling, onboarding, internal technical roadmap handling

Aug 2013

Technical lead for the later part of my employment.

Testing: we went from no tests, to unit testing and phantomjs, to selenium and Jest testing

During two major incidents, I personally ensured going back to green status by refactoring internal messaging and sales page because of unprecedented user growth.

Aug 2013	**Internship, *La Ruche qui dit Oui!*, Paris** `PHP` `Symfony 1.4` `Javascript` `MySQL`
Feb 2013	Maintenance of the previous version while another team was starting the rewrite of the v3.
Jul 2012	**Internship, *Hop-Cube*, Paris** `PHP` `Zend` `Javascript` `MySQL`
Apr 2012	I participated in the realization of the website carlabelling.ademe.fr

Education

Ecole centrale d'Electronique (2008 – 2013) • Master's degree, Computer sciences

University of California, Irvine (2012) • International Business

Concordia university (2011) • Mathematics and Computer Science

Hobbies

Games, computer sciences/technology, martials arts (Black belt in karatédo and did 3 months of kung-fu in a chinese shaolin temple), DDP Yoga, board games, roleplaying games (D&D).
